Capacity building Initiative for Belt and Road Countries

2

UNECE

- ❑ Close links between the B&R and the UN 2030 Development Agenda
- ❑ B&R + SDGs = Mutual Success

Capacity building Initiative for Belt and Road Countries

3

UNECE

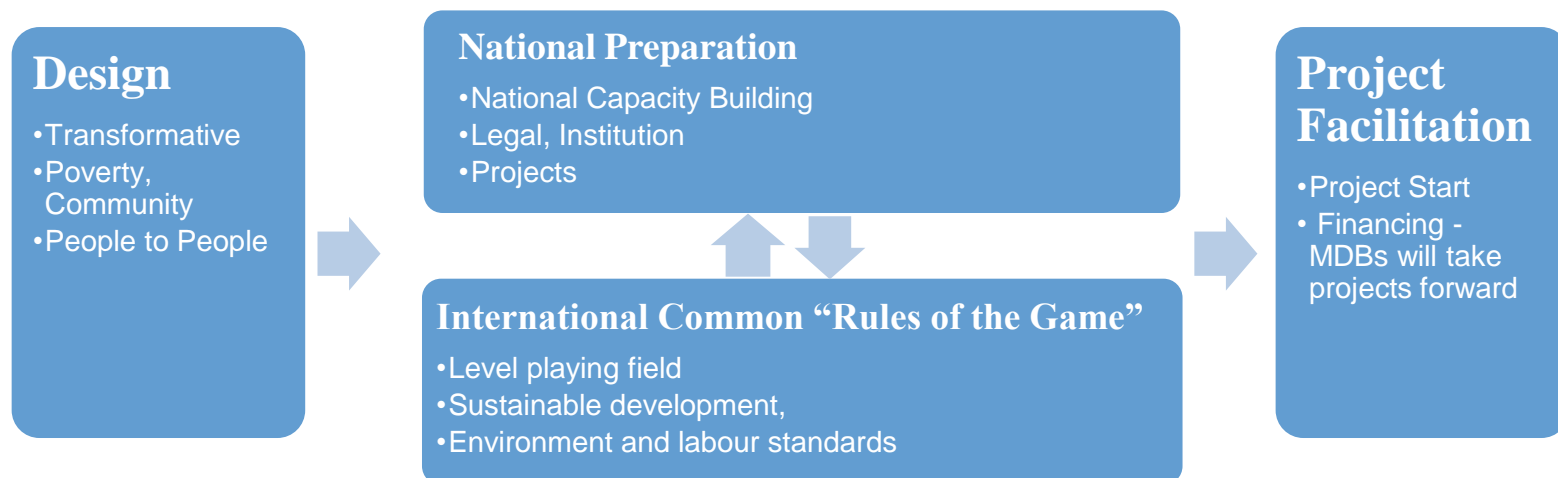

Projects should be sustainable, transformative and People first!

Do nots:

- Do not strap countries with too much debt
- Do not create “white elephants”, i.e. large projects that lead to nowhere and have no impact
- Do not forget inequalities and poverty and women empowerment
- Do not tolerate corruption

People-first Criteria:

- Increase access to essential services and lessen social inequality and injustice;
- Enhance resilience and more care with the environment;
- Improve economic effectiveness;
- Promote replicability and the development of further projects
- Fully involve all stakeholders in the projects.

Capacity building Initiative for Belt and Road Countries

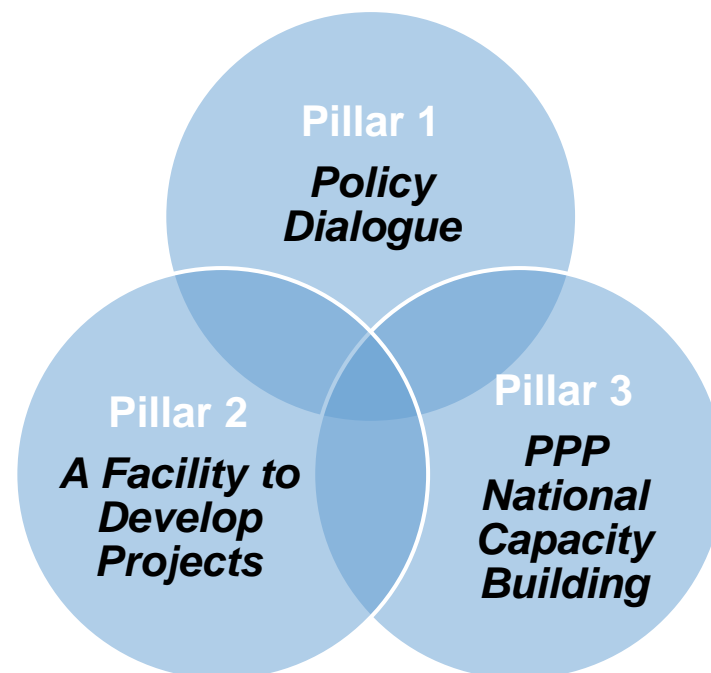

4

UNECE

Three pillars: a multilateral strategic framework...

- ✓ a 5 year capacity building plan
- ✓ to create a multilateral dialogue
- ✓ develop 10 transformative projects to inspire others
- ✓ advancing B&R and the SDGs

Success requires all Pillars to be working together !

Thank you!
